## Mounted UV air purifier

EFSEN UV AIRx2 provides air disinfection of airborne viruses in a simple and efficient piece of equipment

The UV AIRx2 equipment is ideal for occupied rooms where reduction of airborne viruses and bacteria is desirable.

UV AIRx2 effectively reduces the spread of infection by inactivating the ability of virus and bacteria to multiply.

UV AIRx2 provides optimized air circulation within a room, with low noise operation, and includes a pair of high output germicidal UVC bulbs that disinfect without the use of chemicals.

### Easily reduces the spread of viruses and bacteria

- ✓ Improves air quality by disinfection of microorganisms.
- ✓ Ideal for medium size rooms where powerful fan can deliver one air change or more per hour.
- ✓ 99.99% disinfection of Coronavirus, Influenza A, in addition to other bacteria and viruses in a single pass.
- ✓ No ozone, no chemicals.
- ✓ Simple fitting on wall.

## The equipment is easily mounted on the wall

### UV AIRx2

This unit is designed for mounting directly on the wall, either vertical or horizontal suspended mounting with connection to a wall socket.

### Areas for disinfection

Offices

Schools and daycare

Hospitals and clinics

Fitness centers and gyms

Shops and retail

Lifts

### Technical details UV AIRx2

- Dimensions: W:15 x D:20 x H:70 cm, Weight 7kg
- Air flow rate: 100 m<sup>3</sup>/hr
- Supply voltage 230 AAC, 50/60Hz
- UV bulb 2x 55W PLL germicidal shatterproof
- UVC output approx. 18 mJ/cm<sup>2</sup>
- UV bulb is rated up to 8,000 hours
